

# Somtochukwu Nnaji

## Fullstack Developer

Nigeria | +2349022398734 | lyon4197@gmail.com

## Summary

Experienced and driven Senior Frontend Developer with over 6 years of experience crafting high-performance, scalable web applications. Specialized in React, TypeScript, Tailwind CSS, and Next.js, with a proven track record of building intuitive user interfaces and developer-friendly UI SDKs. Passionate about simplifying Web3 complexity into elegant user experiences. Skilled at collaborating cross-functionally with designers, product managers, and backend engineers. Adept at owning frontend architecture from concept to deployment.

## Experience

### Frontend Engineer | 02/2025 - 05/2025

Wadata HR, Remote

Led the development of Wadata HR's web platform using Next.js, TypeScript, and Tailwind CSS, focusing on performance, accessibility, and scalability. Built reusable UI components and layouts that streamlined content updates and improved design consistency across the site. Integrated backend APIs and implemented dynamic data flows using Node.js and PostgreSQL, ensuring smooth interaction between the frontend and backend. Optimized site performance and SEO with server-side rendering and API response caching. Collaborated closely with designers and stakeholders to translate business goals into clean, maintainable code and a seamless user experience.

### Frontend Developer | 10/2023 - 08/2024

Osmaxin, Onsite

Collaborated with a cross-functional team to build the Moonlight Dating App using React Native and TypeScript, delivering a smooth and engaging mobile experience across Android and iOS. Implemented core features such as user onboarding, profile setup, real-time chat, and match discovery with focus on responsive design and performance. Worked closely with designers and backend engineers to ensure seamless integration and consistent UI/UX across the app. Optimized navigation and animations using React Navigation, NativeWind, and advanced React Hooks.

### Fullstack Engineer | 11/2024 - 11/2025

Avaris, Onsite

Designed and developed OpsFlow, a fullstack product management platform that helps teams track and improve product performance. Built the frontend with Next.js, React, TypeScript, and Tailwind CSS, emphasizing intuitive workflows and responsive design. Integrated Supabase for authentication, database management, and real-time data handling. Implemented modular UI components, form management with react-hook-form, and robust API communication patterns.

## Education

Bachelor of Science in Computer Science, 2023 - 2026  
Nnamdi Azikiwe University, Awka

## Skills

React, Node.js, TypeScript, Next.js, Tailwind CSS, Zustand, Redux, Express, PostgreSQL, Ethers.js, SQL, Drizzle ORM, Authentication & Authorization, Supabase, Docker
